DENTASONIC BASIC SET ALIGNER DSG4A-204

Basic introduction IPR set with strips, gauge.
Water cooled Hand Piece.
Content:
- DSS-01, 1x DSM-02, 1x DSM-03, 1x DSM-04, 1x DSM-0.5, 2 sides, 3X RPS-15
- 1x DSG-204 Twist water-cooling HP, 4:1, STROKE 1,1mm 1x MG-06, Measuring gauge with 6 thicknesses: 0.1, 0.15, 0.2, 0.3, 0.4, 0.5mm
- 1 extraction tip + 1 Spray nozzle
- 1x Water hole needle, 1x HP Instruction booklet, 1x Worldwide Warranty 1x IFU, Instructions for use

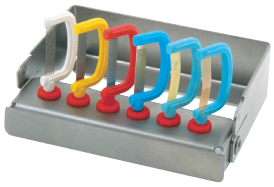
ALIGNER DIASTRIP SET

DSA-S5 - 5pcs

- 1x 0.1 mm - 1x 0.15 mm
- 1x 0.2 mm - 2x PoliStrip

DENTASONIC STERYSTRIP

ST-6 Stainless Steel Strip Holder for 6 strips or burs (empty)



DENTASONIC SS MEASURING GAUGE

MG-6 6 thicknesses (0.1mm, 0.15mm, 0.2mm, 0.3mm, 0.4mm, 0.5mm)

AIRO STRIPS

An innovative interproximal reduction system that makes interproximal enamel removal safer and more accurate without creating sharp corners or subgingival ledges. Designed for use with all orthodontic treatments, these strips curve and flex along the natural contours of the teeth to avoid cutting lips and gums, to prevent excessive enamel removal, and to maximise patient comfort.

- Stainless steel strips with high quality diamond powder
- Medical grade plastic casing
- Single-handed, ergonomic design reduces hand fatigue
- Effective for anterior teeth and easy access to posterior areas
- User and patient friendly
- Autoclavable up to 140ºC (steam heat only)

	Yellow IPR 0.06mm Single-Sided, Extra-Fine Diamond Serrated. Sold in pack of 8.	**DB05-0900**
	Red IPR 0.12mm Double-Sided Medium Diamond. Sold in pack of 8.	**DB05-0901**

IXION ALIGNER PLIER

Aligner Kit IX886
this kit contains

- IX887 Torque plier
- IX888 Rotation plier
- IX889 Retention plier
- IX891 Hole Punch plier
- IX890 Tear Drop plier

ALIGNER PLIERS

IX887

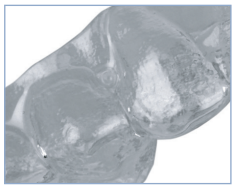
The Torque Aligner Plier
The IX887 creates a horizontal indentation (0.75 x 1.5mm), creating a force point for individual lingual or labial root torque.

IX892

Ixion Aligner Scissors
These lightweight scissors are used for removing excess thermoformed material, and for the smooth trimming and shaping of aligners. Their streamline design, graduated curve and tapered beak makes for easy use - even in tight areas.

IX889

The Retention Aligner Plier
to create a circular indentation (1mm).

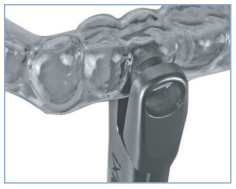


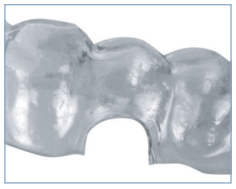
IX888

The Rotation Aligner Plier
The IX888 creates a vertical indentation / force point (0.75 x 1.5mm) on the tooth surface to optimise tooth rotation.

IX891

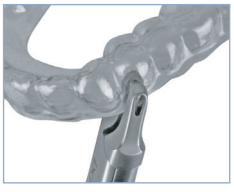
The Hole Punch Plier
Creates a half-circle cut-out in the aligner to give clearance for bonded buttons, tubes or brackets with hooks for elastics.

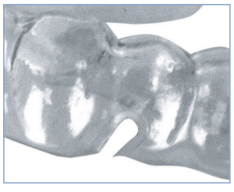




IX890

The Tear Drop Plier
Create a cut at the gingival margin, anywhere along the arch - buccally, labially or lingually - to conveniently hold elastics in place while the aligner is placed in the mouth.





ALIGNER SUPPLIES

G-PREMIO BOND

- Stabiele hechting op glazuur, dentine, composiet, edele en non-edele legeringen, zirkonium en alumina.

- 012694

- Composition unique permettant une adhésion élevée sur tous les substrats indirects (composites,métaux précieux et non précieux, alumine, zircone...)

- 012694

GC ALIGNER CONNECT™

Specifically formulated for aligner attachments
Als eerste in de industrie is GC Aligner Connect speciaal ontwikkeld voor orthodontische aligner attachments. GC Aligner Connect biedt een verbeterde esthetiek, imiteert de glazuur kleurschakeringen van de tand en heeft een hoge duurzaamheid, die slijtage op lange termijn of mogelijke loslating beperkt tijdens de behandeling. Kan gebruikt worden in combinatie met de G-premio Bond, Ortho Solo of Assure.

90-4100-0000 GC Aligner connect - 1 syringe 3,4g with 20 tips

Composite développé pour les traitements par gouttières
La résine composite généralement utilisée pour créer des taquets ne répond pas aux impératifs des traitements par gouttières d'alignement. Aucune résine existante sur le marché n'a spécialement été créée pour cette application. GC Aligner Connect a été développé dans ce sens, afin d'apporter une réponse esthétique par mimétisme de la teinte de la dent et limiter l'usure et les risques de décollement grâce à sa grande résistance. L'adhésion à l'émail se fera par l'intermédiaire d'un agent de collage photopolymérisable (ex: G-premio Bond, Ortho Solo, Assure, etc...). Suivre les instructions de l'agent de collage.

90-4100-0000 GC Aligner connect - 1 syringe 3,4g with 20 tips

PERFECT-A-SMILE

Perfect-a-Smile, een pontic verf voor aligners
Is een licht uithardende pasta in 3 tinten die op elk type aligner kan worden aangebracht om een ruimte of een ontbrekende tand te maskeren.

Perfect-a-Smile, une peinture pontique pour les gouttières.
Une pâte photopolymérisable en 3 teintes qui peut être appliquée sur tout type de gouttière pour masquer un espace ou une dent manquante.

PPA2
Shade A2 - 4gm
PPA35
Shade A3.5 - 4gm
PPAB1
Shade B1 - 4gm

GOTO

is een lichtuithardende lijm met superieure verwerkingseigenschappen.

Klinische toepassingen
- Hechting van bracket en tube
- Bevestigen van vaste linguale retainers
- Hecht alle metalen, keramische en composiet attachments
- UV-lichtgevend middel - fluoresceert op de tand

est un adhésif à réticulation légère avec des propriétés de manipulation supérieures.

Applications cliniques
- Collage brackets et de tubes
- Collage d'un appareil de rétention linguale fixe
- Collage de tous les attachements en métal, céramique et composite
- Agent de divulgation UV - fluorescent sur la dent
